PROFESSIONAL SUMMARY

Performance-driven **Software Engineer** with a strong foundation in **Full-Stack Development**, scalable **Backend Architectures**, and **AI/ML Integration**. Expert in engineering robust **Java/Spring Boot Microservices**, optimizing complex database workflows (**SQL, NoSQL, Neo4j**), and building high-performance cross-platform applications. Published researcher in **GraphRAG** systems with a proven track record of reducing API latencies, designing end-to-end NLP pipelines, and delivering production-ready, cloud-native products.

TECHNICAL SKILLS

Core Programming & Databases: Java (J2EE), Python, Kotlin, Dart, C, SQL, MongoDB, Neo4j

Frameworks & Platforms: Spring Boot, JWT, Flutter, React.js, KMP, Google Cloud Platform (GCP), Firebase, FastAPI

Developer Tools & Concepts: Git/GitHub, Postman, RESTful API Design, Microservices, DSA, SDLC, GraphRAG

PROFESSIONAL EXPERIENCE

Software Engineering Intern | [Verify Credential](#) Dec 2025 – Mar 2026
Infosys Springboard India

- Engineered **scalable backend infrastructure** utilizing **Microservices Architecture** and optimized **Database Schema Design**.
- Enhanced **system throughput** by implementing high-performance **Data Structures and Algorithms (DSA)** for complex data processing.

Technologies: Java, Spring Boot, SQL, System Design, RESTful API Development

Java Backend Developer Intern | [Verify Credential](#) Jun 2025 – Dec 2025
The Skybrisk India

- Developed and deployed production-grade **RESTful APIs** using **Spring Boot**, improving modularity and system maintainability.
- Optimized complex **SQL queries** and indexing strategies, **reducing API response latency by 30%**.

Technologies: Spring Boot, J2EE, Microservices Architecture, SQL Optimization

AI Intern | [Verify Credential](#) Dec 2024 – Jan 2025
TechSaksham (Microsoft & SAP Collaboration) India

- Designed end-to-end **Machine Learning pipelines** involving **Exploratory Data Analysis (EDA)** and advanced **Feature Engineering**.

Technologies: AI/ML, Python, Data Analytics, Microsoft Azure AI

PUBLICATIONS

NyayMitra: A Proposed GraphRAG Architecture for IPC-BNS Transition April 2026
[Live Application](#) | [Source Code](#)
Presented at National Level Conference, HRIT University

- Developed a hybrid **Knowledge Graph** architecture using **Neo4j** and **GraphRAG** to solve statutory concept drift.
- Integrated **Legal-BERT** embeddings for semantic mapping, achieving efficient **sub-50ms multi-hop retrieval latencies**.

- Implemented a deterministic verification pipeline, resulting in a **100% hallucination mitigation rate**.
- Formulated a **PageRank-optimized ranking algorithm** to computationally prioritize landmark judicial authority.

PROJECTS

BudgetWise: AI-Driven Financial Ecosystem

[Frontend](#) | [API](#) | [Source Code](#)

- Built a **full-stack financial engine** with automated **categorization logic** and real-time analytical dashboards.
- Implemented secure **JWT Authentication** and encrypted communication layers for robust user session management.

Technologies: Java, Spring Boot, JWT, PostgreSQL, Cloud Deployment (Render)

SoulSync: Scalable Multimedia Engine

[Source Code](#)

- Engineered a high-performance mobile app using **Flutter** and **NoSQL (Firestore)** for real-time data persistence.
- Integrated an **AI Recommendation Engine** that increased **User Retention and Engagement by 28%**.

Technologies: Flutter, Dart, Firebase, Recommendation Algorithms

SMS Spam Detection (NLP Pipeline)

[Source Code](#)

- Developed a **Natural Language Processing (NLP)** classifier using **TF-IDF** and Naive Bayes, achieving **95% Accuracy**.
- Optimized model performance via tokenization, lemmatization, and hyperparameter tuning on high-dimensional text data.

Technologies: Python, NLTK, Scikit-Learn, Text Mining

EDUCATION

NITRA Technical Campus (Affiliated with AKTU)

Ghaziabad, India

Bachelor of Technology (B.Tech) in Computer Science and Engineering

Expected: 2026

- **Key Coursework:** Operating Systems, Database Management (DBMS), System Design, Computer Networks, OOP.

CERTIFICATIONS

- **Big Data and Cloud Computing Fundamentals:** YBI Foundation | [Credential](#)
- **Professional Android & Kotlin Masterclass:** Udemy Developer Series | [Credential](#)
- **Java Foundation Specialization:** Infosys Springboard Certification | [Credential](#)
- **Agile Software Development:** Infosys Springboard Professional Credential | [Credential](#)
- **Generative AI & LLM Fundamentals:** Udacity Professional Series | [Credential](#)

ACHIEVEMENTS & LEADERSHIP

- **President, CODSoc Society:** Elected leader of the campus technical society; mentored 200+ students in **Competitive Programming**.
- **Smart India Hackathon (SIH) Finalist:** National finalist in India's premier government hackathon for scalable tech innovation.
- **Google Cloud Arcade Champion:** Top-tier performer in **Cloud Architecture** and DevOps-focused technical challenges.
- **Reliance Foundation Scholar (2022):** Prestigious national scholarship awarded for exceptional academic and leadership merit.
- **Technical Event Organizer:** Spearheaded end-to-end logistics for university-level hackathons and technical symposia.
