PROFESSIONAL SUMMARY

Full Stack Software Engineer with hands-on experience in **Java/Spring Boot** backend engineering and **React/Next.js** frontend development. Built and deployed production-style full-stack applications end-to-end – from REST API design and database architecture through to responsive UI and cloud deployment, across two backend internships and two independently shipped full-stack projects.

TECHNICAL SKILLS

Languages: Java, JavaScript, C Programming, Python, SQL, Kotlin, HTML/CSS

Frontend: Flutter, React.js, Next.js, Responsive UI Design

Backend: Spring Boot, Node.js, FastAPI, REST APIs, JWT, Microservices

Databases: PostgreSQL, MongoDB, Neo4j, Milvus

Core CS: Data Structures & Algorithms (DSA), System Design, OOP, DBMS

Tools & Cloud: Git/GitHub, CI/CD, Docker, Render, Firebase, Google Cloud Platform (GCP), Postman

PROFESSIONAL EXPERIENCE

Java Backend Developer Intern – The Skybrisk

Jun 2025 – Dec 2025

Remote, India

[\[Verify Credential\]](#)

- Developed and deployed production-grade **RESTful APIs** using **Spring Boot**, improving system modularity.
- Optimized SQL queries and database indexing strategies, reducing API response latency by **30%**.
- Engineered modular unit and integration test suites integrated into automated **CI/CD** deployment pipelines.

Backend Engineering Intern – Infosys Springboard

Dec 2025 – Mar 2026

Remote, India

[\[Verify Credential\]](#)

- Engineered scalable backend infrastructure using **Microservices Architecture** with optimized database schemas.
- Applied core **DSA** techniques to optimize data processing and increase system throughput on heavy workloads.
- Leveraged AI coding tools (GitHub Copilot, Cursor) to accelerate feature delivery while maintaining code standards.

PROJECTS

NyayMitra: AI-Powered Legal Aid Platform

Next.js, Java, Python, Neo4j

Links: [Live Application](#) | [GitHub Source Code](#)

- Built a **Next.js 15** dashboard with 3D legal-precedent mapping powered by Three.js and Framer Motion.
- Architected a multi-service backend with a **Spring Boot** core kernel and three **FastAPI** microservices.
- Designed a **Neo4j** graph schema and REST endpoints powering case visualization and PageRank-based ranking.

BudgetWise: Full-Stack Financial Platform

React, Java, Spring Boot, MongoDB

Links: [Live Frontend](#) | [Live API](#) | [GitHub Source Code](#)

- Built a **React** frontend with expense analytics charts and responsive UI components.
- Designed a **Spring Boot REST API** backend with **MongoDB**, supporting full CRUD workflows for expenses and user accounts.
- Implemented **JWT authentication**, secure route guards, and CI/CD pipelines deployed on **Render**.

EDUCATION

Dr. A. P. J. Abdul Kalam Technical University

Lucknow, India

Bachelor of Technology (B.Tech) in Computer Science and Engineering

Graduated June 2026

HONORS, RESEARCH & LEADERSHIP

- Research Publication:** Presented "NyayMitra: A Proposed GraphRAG Architecture" at National Level Conference, HRIT University (Apr 2026).
- President, CODSoc Society:** Elected leader of campus technical society; organized technical events and mentored 200+ students.
- Awards & Achievements:** Reliance Foundation Scholar (2022) | Google Cloud Arcade Champion Milestone Achiever (2024).
